avonplast®
SINCE 1965

PVC Pipes & Fittings for Agriculture and Water Supply

Avonplast offers an exhaustive range of uPVC pressure pipes manufactured as per IS:4895:2000 standards, and fittings manufactured as per IS:7834 standards. Available in a range of different sizes, this multipurpose product has several applications including laying underground lines, agriculture, drip irrigation, disposal of chemical, acidic wastes and supply of drinking water. The pipes are ideal for use in agricultural & irrigation systems and are developed using corrosion resistant technology to suit countrywide standards.

Features & Benefits:

- Easy operation & maintenance
- Energy efficient
- Economical, lightweight, easy to handle and install (simple jointing system)
- Smooth inner surface leads to better flow rate
- Non-corrosive, anti-oxidant and chemical resistant
- Longer life and durability due to non-reactive properties
- Self-extinguishing, hence safe
- Hygienic and odourless

Applications:

- Easy to operate and maintain
- Highly energy efficient
- Longer life and durability
- Cost effective and safe
- Non-corrosive and chemical-resistant
- Smooth inner surface for better flow

avonplast®
SINCE 1965

CPVC Thermo Hydro Life Plumbing System

Avonplast CPVC Pipes & Fittings are ideal solutions for hot & cold water plumbing systems. They are manufactured to the best quality standards adopting advanced technologies and manufacturing practices.

Features & Benefits:

- Excellent UV resistance properties
- High robustness
- Extensive service life and durability
- Easy to install and maintain
- Hygienic water supply
- Rust-proof and water contamination secure
- Better flow due to smooth surface, reduced pressure loss and power saving features
- Very economical compared to GI Pipes
- Easy Jointing System (plain-ended pipes can be joined using solvent cement)
- Threaded pipes can be easily joined with GI fittings
- Non-conductor of electricity and low thermal conductivity

Applications:

- To supply drinking water in residential, commercial and industrial buildings and public places
- For transportation needs of airlines and chemicals in industries

Manufactured using

Japanese raw materials

Sizes: 1/2" to 2"

Pipes & Fittings for SWR Drainage System

Avonplast offers an exhaustive range of uPVC pipes and fittings for SWR Drainage System. Available in a complete range of sizes, these multipurpose products offer several applications including laying underground lines, agriculture, drip irrigation, disposal of chemical, acidic wastes and supply of drinking water. The pipes are ideal for use in agricultural & irrigation systems and are developed using corrosion resistant technology to suit countrywide standards.

Features & Benefits:

- Excellent UV resistance properties
- Chemical and corrosion resistant
- Tough, rigid and lightweight material
- Long life and maintenance-free
- Quick and easy installation
- Fire-resistant
- Smooth insertion of pipe
- High performance irrespective of temperature variations
- Available in both self-fit and Ring-fit

Applications:

- For SWR drainage systems
- For overflow lines and chemical waste lines in industries, dairy plants etc

Sizes: 40 mm to 160 mm

avonplast®
SINCE 1965

uPVC Lead Free Cold Water Hydro Life Plumbing System

Avonplast uPVC Plumbing Pipes & Fittings are a versatile range of solutions manufactured as per quality standards ASTM D 1785 & ASTM D 2467 respectively. They can be used for drinking water supplies in residential and commercial buildings. Designed as per industrial set standards, they are made to suit diverse requirements of varied customers. All Pipes having Thread at both ends are manufactured as per IS-554 standards.

Features & Benefits:

- Excellent UV resistance properties
- Extensive service life and durability
- Easy to install and maintain
- Hygienic water supply
- Rust-proof and water contamination secure
- Better flow due to smooth surface, reduced pressure loss and power saving features
- Very economical compared to GI Pipes
- Proven performance in all conditions
- Environment-friendly material
- Non-conductor of electricity and low thermal conductivity

Applications:

- To supply drinking water in residential, commercial and industrial buildings and public places
- For corrosive fluid handling in industries
- In fire suppression systems.

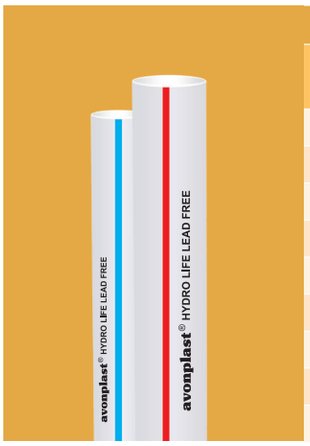

Sizes: 1/2" to 4"

avonplast®
SINCE 1965

Submersible Column Pipes

Avonplast Column Pipes are specially designed and manufactured under stringent quality standards to withstand system loads comprising pump water and pipe weight with an adequate factor of safety. Avonplast has developed specialized techniques like STTF (S-Square, T-Tapper, T-Thread, F-Fusion) Locking, Latex Loop & Buttress Thread, of which we are pioneers in India.

Applications:

Latex Loop:

Specially designed, Latex Loop renders the pipe leak-proof and becomes an excellent gripping system. It acts as a motorjerk absorber which increases the life of the submersible pump.

Buttress Thread:

Buttress Thread gives excellent leak-proof gripping under high tensile load for longer time. They are easy to fit and have stress-free joints.

STTF Locking:

Avonplast's extensive research & development has helped designed a special type of Pipe & Coupler Locking System called STTF - Technology, which provides a complete safe to locking portion compared to other types of locking systems.

Advantages of STTF Locking:

- Bonding between the thread of Pipe and Coupler is very powerful
- Due to its unique tapper thread design, the pipe's thickness is concentrated at the joint which gives maximum strength
- In the process of locking the Pipe & Coupler, there is a strong fusion between the beginning three threads of Pipe and the last three threads of Coupler
- At the end of the locking portion, we have provided a rubber sealing ring which resists the pump vibration and prevents water leakage

Casing Pipes (Screen & Plain)

IS : 12818
CM/L: 6521664

Features & Benefits:

- Longer lasting and efficient
- Non-toxic and corrosion resistant
- Easy to install and maintain
- Wide range to suit various needs

Applications

- To extract water from borewells and tubewells
- For chemical fluid handling in industries

Casing Medium (CM) Pipes are suitable upto depth of 25mtr (820 fts)
Casing shallow (CS) Pipes are suitable upto depth of 80 mts (260 fts)
The pipes shall have threads in accordance with basic profile for metric trapezoidal threads.
The sealing rings to be used with the trapezoidal threads shall be of natural rubber confirming to IS : 5382

REGISTERED A/D

Our Ref :CM/L-6200064189 Dated : 08 Aug 2016 12.8.2016

Subject: Grant of BIS Certification Marks Licence No. CM/L-6200064189 as per IS 7834 : Part 1 : 1987

AVON PLASTIC INDUSTRIES PVT LTD.,,
No.53, Bommasandra Jigni Link Road, Anekal Taluk.,
Bengalore-562106, Distt : Bangalore Rural.
Karnataka.

Dear Sir,

With reference to your application, we are pleased to inform you that it has been decided to grant you a licence to use the Standard Mark in respect of the following:

Product: **Injection Moulded PVC Fittings with Solvent Cement Joints for Water Supplies: IS 7834 (Part 1) : 1987**

Type/Size/Grade/Variety covered under licence :

i) 90^0 Elbow of Nominal Sizes(mm):40,50,63,75,90,110 & of Class 3(6 kg/cm^2)as per IS 7834(Part 3):1987
ii) 90^0 Elbow of Nominal sizes(mm): 20,25,32, & of Class 5(10 kg/cm^2) as per IS 7834(Part 3):1987.
iii) 90^0 TEE of Nominal Sizes(mm):40,50,63,75,90,110 & of Class 3(6 kg/cm^2) as per IS 7834 (Part 4):1987.
iv) 90^0 TEE of Nominal Sizes(mm):20,25,32 & of Class 5(10kg/cm^2) as per IS 7834(Part 4):1987.
v) Sockets of Nominal Sizes(mm): 40,50,63,7590,110 & of Class 3(6 kg/cm^2) as per IS 7834 (Part 6):1987.
vi) Sockets of Nominal Sizes(mm):20,25,32 & of Class 5(10 kg/cm^2) as per IS 7834(Part 6):1987.
vii) Caps of Nominal Sizes(mm):40,50,63,75,90 110 & of Class 3(6 kg/cm^2) as per IS:7834(Part 8):1987.
viii) Caps of Nominal Sizes(mm): 20,25,32 & of Class 5(10 kg/cm^2) as per IS 7834(Part 8):1987.

2.The number assigned to this licence is CM/L- 6200064189 which has been made operative from 05/08/2016 and is valid upto 04/08/2017. The licence number should invariably be referred to in your future correspondence.
