

Edition 8.0

Creations

Life is an adventure. Ours started in 1817.

Founded in 1817 in Hornberg in the Black Forest, Duravit AG is today a leading international manufacturer of designer bathrooms. The company is active in more than 130 countries worldwide and stands for innovation in the fields of signature design, comfort-enhancing technology and premium quality. In cooperation with high-profile international designers, such as Philippe Starck, EOOS, Phoenix Design, sieger design, Kurt Merki Jr., Christian Werner, Matteo Thun and Cecilie Manz, the company develops unique bathrooms that enhance quality of life for users on a sustained basis. Duravit's product portfolio comprises sanitary ceramics, bathroom furniture, bathtubs and shower trays, wellness systems, shower-toilets, tap fittings and accessories as well as installation systems.

Design and Sustainability.

Environmental responsibility is one of the central subjects these days – a practice that Duravit has championed for years in its selection of materials, technological applications and production methods. Sustainability is the very reason Duravit continues to work with sanitary ceramic, a material that dates back to 8,000 BC. Today, the manufacture of Duravit sanitaryware ceramic continues to employ the same basic materials – clay, kaolin, feldspar and quartz – a set of natural, regenerative substances.

Even though we are living in an era of high-tech and automation, when it comes to products with such a high claim to design and function, quality still highly depends on human skill.

Duravit has been the proud recipient of numerous international design awards. These awards celebrate bold design, which has become Duravit’s hallmark over the years. Good design, as Duravit and its designers see it, is never at the expense of practicality – neither is interested in “design for design’s sake”.

- 1 The wood grouse as the emblem of Duravit and its premium quality.
- 2 Duravit Design Center : The company was founded almost 200 years ago in Hornberg where the headquarter is located.
- 3 Showcase, Tarapur, India

All production sites around the world:

Chongqing/Shanghai, China (3 sites)
Bizerte, Tunisia
Tarapur, India

Duravit India is a growing subsidiary of Duravit AG. With a strong heritage of 200 years and presence in 130 countries, Duravit is well-known for working with world famous architects and designers.

The group manufactures and markets sanitary ceramics, bathroom furniture, bathtubs and shower trays, wellness systems, shower-toilets, faucets and accessories as well as installation systems. Duravit India has already earned a recognized status, with ISO 9001, ISO 14001 and ISO 50001 certifications. The Indian production site is a state-of-the-art plant with a workforce of 350 people in aggregate.

The company has already made an impact in India as a premium bathroom brand with presence in more than 75 luxury hotels and over 150 premium residential apartments. Duravit products are on display in 400 retailer showrooms across India. The company has deployed an after-sales service team across most parts of the country to support Duravit customers.

The Duravit designers.

Unique designer network, sustainable signature design.

World of Duravit. References.

The blue Duravit lettering with the wood grouse is recognised around the world. It can be found on ceramics, furniture and bathtubs that meet the highest standards of quality, technology and design. The masterpieces that we're presenting here have one thing in common: the blue wood grouse.

DuraStyle

1

DuraStyle: New freedom in the bathroom. Individuality is important in everyday living. However, individuality does not mean making an impression with all means. Simply an ambience which reflects itself, gives your personality air to breathe and space to do your own thing. Such as DuraStyle: Designed by Matteo Thun & Antonio Rodriguez, the range of bathrooms is revealed as deliberately discreet – and blends harmoniously into practically any ambience for this very same reason. Two surface versions – light and dark – open up further options for individual bathroom design. Simply incomparable in its formal simplicity, DuraStyle succeeds with ease in underlining the personality of the bathroom user.

Design by Matteo Thun & Antonio Rodriguez

DuraStyle

The innovative impression given continues with the shapes of the toilet and bidet: The flat lid/seat combination, available with and without a soft closing mechanism, is eye-catching. Toilet and bidet are available in wall-mounted and floor-standing versions, supplemented by a one/two-piece toilet. The wall-mounted toilets, available with a 48, 54 or 62 cm projection and with concealed or conventional fixation, are suitable for practically any domain of use and almost any architectural condition.

Starck 3

The original knows no equal – and Starck 3 remains the measure of all things when it comes to design, variety and price. Offering better value for money than ever before – for a real Philippe Starck. With more than 50 models or 64 variants, Starck 3 is probably the most extensive bathroom range ever, suitable for the widest range of different uses, application areas and architectural settings, whether in the public, semipublic or private sphere.

D-Code

With variants and solutions for all conceivable room layouts, D-Code is the range for absolutely any situation – the key to an attractive, affordable design. The series is visually understated – a rectangle with rounded corners, the quintessential washbasin. The discreet forms do not impose themselves but blend into their surroundings. That’s what makes D-Code so timelessly modern – another feature of good design.

D-Code

1

D-Code offers two one-seaters with backrest and the choice between the classical variant with outlet in the foot area and a variant with a central outlet. This means there's no outlet to get in the way when taking a shower. The optional bathtub handle for getting in and out is a comfortable extra. Additional option: Duravit's own whirl system is a great value.

Washbowl, 600 x 345 mm,
235560

Straight-lined and precise, yet also soft and organic: the DuraSquare bathroom series effortlessly combines such contradictions to create a new aesthetic. The furniture washbasin with metal console in Chrome or Black Matt creates plenty of practical shelf space. The furniture washbasin with a width of 500 mm is also new. A perfect match in terms of form: the square toilets of the Vero Air bathroom series.

1 Washbasin, above counter basin grounded, 600 x 470 mm, #235460
Single lever basin mixer M, 175 mm, # C11020

2, 3 Washbasin, Furniture Washbasin, 600 x 470 mm, # 235360
Single lever basin mixer M, 175 mm, # C11020
Metal console floor-standing, 665 x 451 mm, # 003101

Vero

Not without reason is the Vero ceramic series a modern design classic that has now been a Duravit bestseller for more than a decade: its consistently rectangular design is not only elegant but also timeless.

Above counter basin,
595 x 465 mm, # 045260

- 2 Above counter basin, 500 x 470 mm, # 045250
- 3 Washbasin, 500 x 470 mm, # 045450

Basins and Toilets

With the Bacino console washbasin, Duravit set a trend that continues unabated today. A small but attractive range, Bacino enables both modern and distinctive washing area solutions for private bathrooms, powder rooms and hotels. The space-saving and easy-care sanitaryware items allow plenty of scope for generous bathroom design, especially with small spaces.

Washbowl Bathroom Foster,
495 x 350 mm, # 033550

Washbowl Bacino,
420 x 420 mm, # 033342

- 1 Washbowl Bacino, Ø 420 mm, # 032542
- 2 Undercounter basin Santosa, 510 x 375 mm, # 046651

Basins and Toilets

Washbowl Cape Cod,
480 x 480 mm, # 232848

With his Cape Cod bathroom range, Philippe Starck has reinvented the bathroom, removing the barriers between nature and the indoors. Nature becomes a permanent part of the bathroom, a place for rejuvenation and refreshment with aesthetically appealing materials and forms. Ceramic washbowls with distinctively thin edges, a perfectly coordinated range of bathtubs, and bathroom furniture that can be combined on an individual basis and positioned as desired within the room.

XBase One Drawer, Vanity unit wall-mounted, 800 mm, # XB 6036 Starck 3, furniture washbasin # 030480

Brioso

True to the essence of the word “brioso”, the bathroom furniture range embodies contemporary bathroom design with sweeping casualness. Characteristic details are the precise, finely nuanced lines and the striking, ergonomically designed handle. At the same time, the design is sufficiently understated so it can be easily combined with a total of five Duravit ceramic ranges. This way, Brioso offers varied and customizable design options as well as excellent value for money.

Design by Christian Werner

- 1 2 x Above counter basins, 600 x 470 mm, # 235260
Console for above counter basin and countertop basin, 1800 x 550 mm, # UV 107C
2 x Brioso vanity units for console, 820 x 550 mm, # BR 5117
2 x Single lever basin mixer M, 175 mm, # C11020
2 x Mirrors with lighting, 620 x 45 mm, # BR 7001
- 2 Handrinse basin, furniture handrinse basin, 430 x 300 mm, # 072343
Vanity unit wall-mounted, 420 x 289 mm, # BR 4000 L/R
- 3 Washbasin, furniture washbasin, 830 x 490 mm, # 233683
Vanity unit wall-mounted, 820 x 479 mm, # BR 4002

Beautiful bathrooms, tone-in-tone: The Brioso bathroom furniture comes in 15 different finishes. The characteristic handles and furniture feet are available in the same tone as the front and cabinet surfaces – in seven different colors (matt or gloss), depending on the cabinet color. This allows for bathrooms with perfectly coordinated design and color schemes.

Brioso

Light & Mirror

The mirror variant with ambient light gives out pleasant, indirect light from all four sides, and the wall-wash effect creates an extraordinary, atmospheric lighting effect within the room. Because this variant does not directly illuminate the viewer, additional bathroom lighting such as downlights is required. Optimal mirror heating ensures that the surface of the mirror does not steam up.

- 1. The lighting works with a sensor switch, enabling it to be turned on and off with a simple motion of the hand. Available in the “Better” and “Best” design variants.
- 2. The integrated heating prevents the surface of the mirror from steaming up. This is the “Best” version of the ambient light model.
- 3. The LED washbasin lighting creates a pleasant light directly on the washbasin and is available for all mirror models in the “Best” design variant.

Of all the elements in a bathroom, the mirror is probably the one that gets looked at the most. That being so, our options for edging light at the side or top or indirect ambient light show the mirror in its best light, upgrading it to an attractive design element in both private and commercial bathrooms. Light output of over 300 lux, a pleasant light color of 4,000 kelvin.

Duravit Rimless®

With the Rimless technology, the open design of the toilet rim enables an innovative and powerful flush that ensures perfect and hygienic flushing results, even with volumes as small as 4.5 litres. Thanks to an open, easily accessible rim area, the bowl is particularly easy to keep clean, reducing cleaning times considerably. Toilet models in the DuraStyle and Starck 3 series are available in the Duravit Rimless® option.

Hygienic flushing without splashing, no matter what cistern

Quick and easy to clean

Ceramic distributor

Optimized design of the flushing rim and bowl geometry for dynamic water flow and optimum surface flushing

Perfect flushing of the inner surface, outstanding flushing results even with small water volumes

Compatible with different cisterns

Hygienic: fully-glazed, extremely smooth ceramics prevent the formation of germs and the build-up of residue

Thanks to the intelligent inner geometry, the water level is 16 mm above the specially formed ceramic

Less residue accumulation thanks to the large area flushed with water

HygieneGlaze 2.0

HygieneGlaze 2.0 sets an unprecedented standard of hygiene for toilets and urinals. To that end the innovative HygieneGlaze ceramic glaze has been further developed and now has a new formula: the new HygieneGlaze 2.0 which is baked into the ceramic during firing, is not only especially effective, but also acts very quickly. Tests by the Institute for Hygiene and Public Health at the University of Bonn confirm that HygieneGlaze effectively kills 90 % of bacteria (e.g. E.coli) after six hours. After 24 hours this percentage rises to 99,999 %, an unprecedented level. Furthermore, HygieneGlaze arrests the bacterial growth (e.g. escherichia coli) in comparison to a conventional ceramic glazing. Antibacterial, durable, safe: with HygieneGlaze Duravit defines a new standard in bathroom hygiene. HygieneGlaze is optionally available for the Architec # 019009, for the toilets and urinals in the Darling New, DuraStyle, Happy D.2, ME by Starck, P3 Comforts and Starck 3 collections.

Duravit is a member of the German Sustainable Building Council, DGNB. The DGNB system describes and assesses the sustainability of buildings and houses. The assessment is a comprehensive one looking at the complete life cycle of the building.

Duravit is member of USGBC (U.S. Green Building Council), a board that is committed to a sustainable future through efficient and energy-saving buildings. One measure is the LEED program for green construction. LEED certified buildings save resources and have a positive impact on the health of occupants, while promoting renewable energy.

Duravit is a member of the Institut Bauen und Umwelt (Institute for Construction and the Environment), an initiative by manufacturers of construction products to meet the demand for more sustainability in the construction sector. It offers a united public image of Ökolabeltype III Environmental Product Declarations (EPDs) in compliance with ISO and EN standards.

IBU has awarded Duravit EPDs for its sanitary ceramic, sanitary acrylic and DuraSolid® product groups. The EPD attests to the environmental compatibility of the product and the company's responsibility for sustainable construction.

The Unified Water Label (EWL) is a voluntary system by European bathroom manufacturers supported by Duravit and all major brands. The UWL's online database and product labels ensure transparency by clearly marking the water consumption and energy usage of bathroom products.

Duravit is a member of WaterSense, a partnership program by the US Environmental Protection Agency (EPA). It is aimed primarily at consumers wishing to reduce their water consumption. Products and services with the WaterSense label save at least 20% without compromising on performance or reliability.

Duravit bathroom furniture production has the PEFC quality seal. PEFC (Programme for the Endorsement of Forest Certification) is the largest institution for ensuring sustainable forest management through an independent certification system. Wood and wood products with the PEFC seal come from demonstrably ecological, economical and socially-sustainable forest management.

Duravit is certified according to ISO 9001 (quality management), ISO 14001 (environmental management) and ISO 50001 (energy management). All management processes are subject to a continuous improvement process and meet internationally recognized requirements.
