About H & R Johnson (India)

Established in 1958, H & R Johnson (India), a division of Prism Cement Ltd. is the pioneer of ceramic tiles in India. Over the past five decades, H & R Johnson has various product categories to offer end-to-end lifestyle solutions covering Tiles, Sanitaryware, Faucets, Wellness, Engineered Marble, Quartz as well as Modular Kitchens & Furniture.

Johnson Tiles has four sub-brands i.e. Johnson Tiles, Johnson Porcelano, Johnson Marbonite and Johnson Endura that offers end to end tiling solutions for every space and application.

Johnson Bathrooms offer complete solutions in bathrooms that include Sanitaryware, Faucets, Wellness products.

Inspired by the unprecedented beauty of natural marbles Johnson Marble & Quartz provides Engineered Marble and Quartz in a wide range of designs, colours, thickness and sizes.

Johnson Kitchens offers modular Indian and imported kitchens from Nobilia, Germany's No.1 kitchen brand. Johnson has also partnered with Rauch, Germany's leading brand for modular furniture like beds and wardrobes.

With efforts towards continuous improvement backed by consumer insight and Research & Development, H & R Johnson has always been at the forefront of innovation. Not only has Johnson pioneered vitrified tiles in the country but has a long list of innovations to its name. Some of them include Germ Free Tiles and Sanitaryware, Stain free tiles, Tac tiles which function as directional tiles for the visually impaired, anti-static tiles, etc.

With close to 60 years of expertise in the ceramics industry and a pan India distribution and service network Johnson has become a leading name providing integrated lifestyle solutions.

About Johnson Bathrooms

Johnson Bath Division was established in year 1998 with a Promise of offering Innovative, Quality Products and Timely Supplies through its strong distribution presence across India. Having two manufacturing facilities for Faucets located at Baddi & Samba with production capacity of 1.6 million pcs per annum. These facilities are equipped with high-tech modern machinery, In-house R&D & Testing facilities which ensures uniform quality of all products.

Guided by the Core concept of “**Adorability, Adaptability & Affordability**” We are able to offer wide range of products which can best fit into our customer’s needs.

Adorability : Minimalistic designs inspired from the concept of Beauty and simplicity, All our ranges are distinctly designed to get the design symmetry in all the SKU’s.

Adaptability : All our products are checked with stringent quality norms defined as per international standards to ensure optimum performance for longer period of time.

Affordability : Keeping in mind the requirement of different segment of customers we have a vast ranges of products at different price points that make our products affordable for various segment of customers.

With World class technology and top quality products Johnson Bathrooms is committed on providing better solutions and services to customers.

INSPIRED DESIGN,
FRESH THINKING AND
THE HIGHEST QUALITY STANDARDS
ARE THE CORE VALUES OF
JOHNSON BATHROOMS.

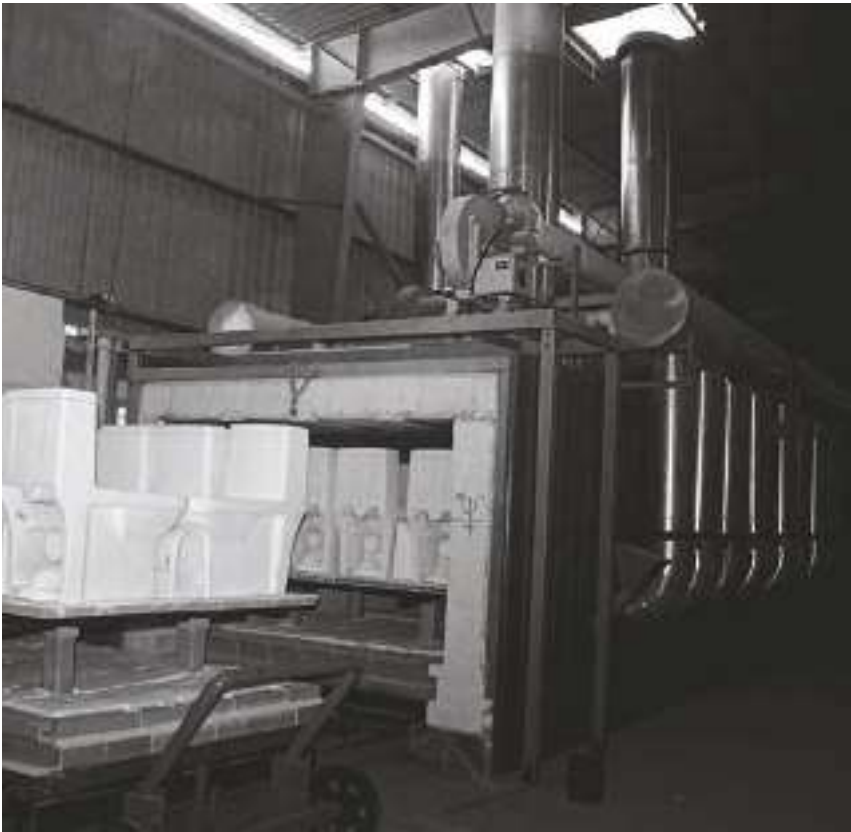

The commitment to lasting quality is apparent through 10 year warranty on all ceramic products. With a reputation for being a ‘people’ organization, Johnson has built lasting relationships with all its customers by providing outstanding service.”

With expert craftsmanship we give form to designs that offer Modern touch to every Design so as to expand our horizons of asthetic appeal.

Johnson uses latest technology to produce some of the most advanced products; We also have a number of water saving products which helps our clients in reducing water consumption. Johnson is also committed to preserving and protecting the environment by minimising the impact of its activities throughout every aspect of its business.

Johnson GermFree Sanitaryware.

A marvel of SilverNano technology.

Johnson presents the all new range of sanitaryware with unique anti-bacterial property. An amazing mélange of aesthetics and hygiene, Johnson's Germ Free sanitaryware is an ultimate outcome of the breakthrough SilverNano technology. The range is coated with special Nano Ceramic glaze comprising of Silver Nano particles (ions) that inhibit multiplication and growth of bacteria, thus keeping your sanitaryware free of bacteria. Furthermore, the range offers Germ Free Soft Close Seat Cover and Flushing Cistern as well. Johnson has truly created a zone of protection for the health and safety of your family.

What is Nano technology and SilverNano particles?

Nanotechnology is a rapidly growing science of producing and utilizing nano-sized particles that measure in nanometers (1nm = 1 billionth of a metre). One nano material that is having an early impact in healthcare products is nano-silver.

For thousands of years Silver has been used as an ingredient in alternative medicines, such as Ayurveda and is known to have anti-bacterial and anti-fungal properties. It is known & scientifically proven that SilverNano ions can effectively sterilize over 650 types of bacteria. The SilverNano particles typically measuring 25nm have a relatively large surface area due to their tiny particle size. This increases the contact area with bacteria or fungi, vastly improving its bactericidal and fungicidal effectiveness.

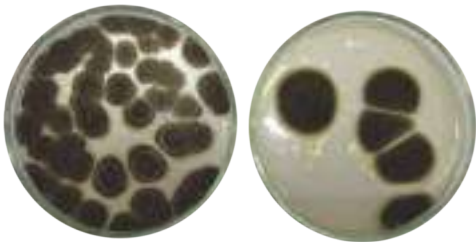

The SilverNano when in contact with bacteria and fungus adversely affects cellular metabolism and inhibit cell growth. The SilverNano suppresses respiration, basal metabolism of electron transfer system, and transport of substrate in the microbial cell membrane. The SilverNano inhibits multiplication and growth of those bacteria and fungi which cause infection, odour, itchiness and sores.

Your Hygiene. Our Concern.

TESTING OF JOHNSON GERM FREE SANITARYWARE FOR
BACTERICIDAL AND FUNGICIDAL EFFECTIVENESS

Results after 24 hours of incubation

**Asp. niger fungal reduction before
and after exposure**

CARE & MAINTENANCE

Tips

Chrome Plated Products

Dirty Taps cause bathrooms to appear dingy and neglected. Exposure to dirt, body oils and soap cause taps to develop a filmy exterior. Minerals in hard water combined with soaps and shampoos can form a cloudy scum on taps. The longer residue remains on taps, the more difficult it becomes to remove. Frequently cleaning taps maintains their aesthetic appeal and prevents unsightly buildup. Use basic soap solutions to effectively clean and restore a taps.

Special Care

Robust cleaning methods and aggressive cleaning agents may not just damage surfaces, they can also affect the inner workings of the product.

Avoid mistakes when combating limescale and dirt: if incorrect treatment leads to damage, this is excluded from the warranty.

Never spray cleaning agents directly onto mixers or showers. Instead, spray cleaning agent onto a soft cloth and use this to wipe the surface. Thoroughly rinse mixers and showers after cleaning with clean water.

Do not use any cleaning agents containing hydrochloric acid, formic acid, chlorine bleach or acetic acid, as these can lead to significant damage.

Please follow below steps:

Fill a spray bottle with undiluted white vinegar. Spray the vinegar generously onto the faucet. Let the vinegar remain on the faucet for 5 minutes to loosen soap scum, dirt and mineral deposits.

Wipe the faucet with a paper towel to remove loose grime.

Inspect the faucet for remaining stains, scum or grime. If more cleaning is needed, fill a plastic bowl with 1/2 cup of baking soda and 1/4 cup of white vinegar. Thoroughly mix the ingredients to form a paste with the consistency of toothpaste.

Spread the paste over the faucet, using a spatula. Keep the paste on the faucet for 10 minutes.

Scrub the faucet with a nylon scouring pad to loosen remaining debris.

Dampen a soft cotton rag with warm water. Wipe the damp rag over the faucet to rinse away the paste and loosened debris.

Wipe the faucet with a terry cloth towel until completely dry.

Glazed Sanitaryware Products

Sanitaryware products are made from vitreous china. The lid and seat may be made from this material, plastic or other materials. Some toilets have a special glazed finish that helps keep the toilet cleaner longer. Whether your toilet has special glaze or not, cleaning procedure has to be followed. Do it frequently (sufficient frequency depends on usage) and use appropriate cleaning products.

Please follow below steps:

Put on protective eyewear as toilet cleaning chemicals can be very caustic. For the same reason, as well as sanitary reasons, wear rubber gloves. Open a window, if possible, for ventilation. At the least, keep the bathroom door open as cleaner fumes are toxic.

Open a bottle of non-abrasive toilet cleaner. Point the top just beneath the rim of the inner part of the toilet bowl. Squirt the product all around the inner rim.

Leave the room and let the cleaning product have ample time-check the label-to work on the toilet. If you have pets or young children in the home, secure the bathroom door to prevent their contact with the cleaning chemical.

Use a toilet brush to scrub the inside of the toilet bowl thoroughly. Close the lid (to prevent splashing the chemical) and flush the toilet to rinse out the bowl.

Wet a sponge in warm water. Apply either a general bathroom cleaner or antibacterial soap to the sponge. Use this to wash the seat, the lid and other areas of the toilet.

Rinse out the sponge and wipe over the outer toilet surfaces again. This is to remove cleaner residue. You may dry the toilet's exterior with a soft towel, if you wish.
