PRESENTING SOMANY'S RANGE OF BATHWARE DDESIGNED TO CONSERVE WATER.

THE WATER CRISIS IS REAL – WHY WE SHOULD CARE

- More than 50% of water used in an average urban household daily, is either flushed out or goes down the drain.
- Water scarcity affects more than 2.8 billion people across the globe. That's almost one in 3 people.
- Over 1.2 billion people lack access to clean drinking water. That is almost one in every 7 people.

SOMANY'S COMMITMENT TO THE ENVIRONMENT

Somany Ceramics Ltd., India's leading Tiles and Bathware company strongly believes in a commitment to preserve mother nature. Seeing the water crisis, the onus is on all of us to be mindful of the water we use. To help people do so, our products are designed in such a way that they not only look beautiful, but also use significantly less water.

Somany's Bathware products have been given a green certificate by the International Association of Plumbing and Mechanical Officials (IAPMO) and various other organisations like Indian Green Building Council (IGBC) and Leadership in Energy and Environmental Design (LEED). All our certified products have received a 3-star rating, which is the maximum rating that sanitaryware products can get.
