About Us

Geo pipes is the first ISI Certified PVC pipe manufacturer in Kochi. Established 30 years ago Geo pipes made its humble beginning by manufacturing and marketing PVC pipes. In due course of time the company has developed a good dealer network and started marketing its products all over KERALA. The range of useful properties afforded by PVC makes it one of the most versatile of all pipe materials, a fact attested to by the variety of applications and markets served by PVC pipes. The rationale for specifying or using PVC pipe is justified on the basis of any or several.
